## Stories from an American Mental Institution

Winner of the 2012 NYAPRS  
PUBLIC EDUCATION/MEDIA AWARD

"An extraordinarily powerful film...poignant and insightful"  
- Filmmaker Magazine

Thirty years after her commitment to the violent ward of Kings Park State Hospital, filmmaker Lucy Winer returns to learn the story of the now-abandoned institution that once held her captive. Her meetings with other former patients, their families, and the hospital staff reveal the painful legacy of our state hospital system and the crisis left by its demise.
